SWARM

SCREENING ACOUSTIC SYSTEM

As a modular, self construct and free standing system, office spaces can now be divided into an array of almost infinite configurations to suit any size or footprint open plan office environment.

The system can be assembled to a desired length, height or linear configuration to divide an open plan footprint while offering an incredible acoustic presence within the space. The system can also be disassembled and rearranged as a day two scenario which allows for an ever changing office landscape if necessary without having to employ costly, invasive onsite contracting work to demolish and reconstruct partition systems. Swarm would also mitigate the need to redesign or perform any civil MEP works if the office landscape had to undergo a landscape revision. An entire building envelope can now be designed into a practical, cost effective, acoustic working landscape.

With the addition of the hexagonal inserts which are available as solid elements or an array of patterned cut outs there is also the choice of how open or closed the system will be to suit the office requirements.

SPECIFICATIONS

PRODUCT SPECIFICATIONS

Composition: 12mm 100% Polyester Fibre
Recycled content: Minimum 45% PET plastics
Recyclability: 100% recyclable

PROCUREMENT

Procured in standard kit form as listed components below.

Components : 63 struts
86 connectors
24 feet
9 hexagonal inserts

Coverage: Approx 7 sq metres

ACOUSTICS

Acoustic NRC Rating: E-87 NRC 0.75 (12mm material)
Calculated to BS EN
ISO 11654:1997

VOC EMISSIONS

VOC concentration: Low VOC product.
Product manufactured from 100% polyester fibres and no
chemicals are used in manufacture of the material.

PET MATERIAL FIRE RATINGS

12mm - EN13501-1:2018: B-s1, d0

INSTALLATION

We recommend all 14six8 products to be installed by a preferred installer.
Preferred installers can be supplied on request.
